Costa Rica

Birds, Mammals and Natural Wonders of the Neotropics

OVERVIEW

Nestled between the Pacific and the Caribbean, at the junction of North and South America, Costa Rica boasts diverse habitats and exceptional wildlife. Quite remarkably, given its relatively small size (about the size of Tasmania), it is home to 5% of the world's plant and animal species, including more than 900 species of birds. On this tour we search for Central American endemic bird species such as the incredible **Resplendent Quetzal, Snowy Cotinga, Volcano Hummingbird,** and **Long-tailed Silky-Flycatcher** and other highlights such as **Scarlet** and **Great Green Macaws, Yellow-throated Toucan, Emerald Toucanet, Fiery-billed Aracari,** and the delightful **Snowcap**. Add to this the chance to see an incredible **10 species of owl**, **10 different woodpeckers**, and **6 trogons**, and you'll quickly appreciate just how special this small tropical nation is! Costa Rica is also rich in other fauna such as monkeys, sloths, caimans, and impossibly bright tree-frogs. Some of the mammals we aim to see include both **Brown-throated Three-toed** and **Hoffman's Two-toed Sloths, Northern Tamandua, White-nose Coati, Mantled Howler Monkey, Variegated Squirrel** and the very cute **Honduran White Bat**. A further benefit of visiting Costa Rica is that around 25% of the country is protected for conservation, and on this tour, we visit a range of protected habitats including mangrove swamps and meandering rivers on the Pacific coast, rich forest in the mountains, tropical dry forest, and teeming wetlands. Join us on this comprehensive tour of the very best of Costa Rica!

A message from Tonia Cochran, Welcome to Inala Nature Tours. As a biologist, conservationist, and lifelong advocate for wildlife, it has been my privilege to share the extraordinary natural heritage of Tasmania and beyond with guests from around the world. Since founding Inala in 1994, my vision has been to create meaningful, ethical nature experiences that contribute directly to the protection of the species and habitats we visit. Every tour you take with us helps support conservation, community initiatives, and the ongoing care of the rare and remarkable wildlife that makes these landscapes so special. Thank you for choosing to travel with Inala — together, we're making a genuine difference for nature.

.

Dr Tonia Cochran, OAM
Owner, Founder, Managing Director
& Lead Guide of Inala Nature Tours

2027 TOUR DETAILS

TOUR DATES: 28 April - 12 May 2027 (15 days)
TOUR COST: US$8,750 per person twin share. Single supplement: US$1,200
NUMBER OF PARTICIPANTS: 6-8 participants + Inala leader + local guide
ACTIVITY LEVEL: Moderate
INCLUSIONS: 14 nights' accommodation | all meals shown in itinerary (B, L, D) & bottled water | excursions & entrance fees to national parks | specialist guiding services | ground transportation
EXCLUSIONS: flights | personal items | laundry | tips | alcoholic and non-alcoholic beverages | activities not mentioned in the itinerary

Costa Rica

Birds, Mammals and Natural Wonders of the Neotropics

2027 Itinerary Overview

Day 1. Wed 28 April. Arrive San José
Day 2. Thu 29 April. San José to Punta Leona
Day 3. Fri 30 April. Punta Leona - Carara National Park
Day 4. Sat 1 May. Punta Leona - Tárcoles River
Day 5. Sun 2 May. Punta Leona to Talamanca Mountain
Day 6. Mon 3 May. Talamanca Mountain
Day 7. Tue 4 May. Talamanca Mountain to Orosi Valley
Day 8. Wed 5 May. Orosi Valley
Day 9. Thu 6 May. Orosi Valley to Caribbean lowlands
Day 10. Fri 7 May. Caribbean lowlands - La Selva Biological Station
Day 11. Sat 8 May. Caribbean Lowlands
Day 12. Sun 9 May. Caribbean Lowlands to Caño Negro
Day 13. Mon 10 May. Caño Negro
Day 14. Tue 11 May. Caño Negro to San José
Day 15. Wed 12 May. Depart San José

Top Species

Resplendent Quetzal
Snowcap
Fiery-billed Aracari
Sunbittern
Wrenthrush
Volcano Hummingbird
Nicaraguan Grackle
Red-capped Manakin
Hoffman's Two-toed Sloth
Brown-throated Three-toed Sloth
Mantled Howler Monkey
White-faced Capuchin

The amazing Sunbittern - Vernon Campos

Detailed Itinerary

Day 1. 28 April. Arrive San José. You will be met on our arrival at the San José International Airport in and transferred to the hotel. If there's time, you may wish to explore the hotel's lush gardens to enjoy your first neotropical birds such as Crimson-fronted Parakeet, Boat-billed Flycatcher, Groove-billed Ani, and of course several species of hummingbird. The tour officially begins with a welcome dinner at the hotel this evening. **Accommodation**: Hotel in San Jose (en suite room). **Meals**: D.

Day 2. 29 April. San José to the Punta Leona. Early this morning we will meet our expert local bird guide for a pre-breakfast birding walk in the extensive hotel grounds. The birding in the grounds can be excellent, and we may see species such as Social Flycatcher, Squirrel Cuckoo, Baltimore Oriole, Blue-grey Tanager, Rose-throated Becard, Hoffman's Woodpecker, Lesson's Motmot, and Mottled Owl. After breakfast we will make our way west to the Pacific lowlands. We will stop en route in an area of open deciduous forest where we will look for species such as Turquoise-browed Motmot, Pacific Screech Owl, Ferruginous Pygmy-Owl, Lesser Greenlet, the incredible White-throated Magpie-Jay, Black-headed Trogon, and Barred Antshrike. We will arrive at our hotel at lunch, and after checking into our rooms gather for some birding in the rainforest around and near the hotel grounds. The number of possible species is very impressive with possibilities including White-tipped Dove, Slaty-tailed and Gartered Trogons, Long-tailed Manakin, Fiery-billed Aracari, Yellow-throated Toucan, Bare-throated Tiger-Heron, Pale-billed Woodpecker, Northern Waterthrush, Streak-headed Woodcreeper, Northern Barred-Woodcreeper, Marbled Wood-Quail, Grey-cowled Wood-Rail, Greenish Elaenia, Stripe-throated Hermit, Chestnut-backed Antbird, Dusky Antwren, Black-hooded Antshrike, Northern Bentbill, Orange-billed Sparrow, Rufous-breasted Wren, and the delightful Blue-throated Goldentail, whew! Tonight we will enjoy a well-earned dinner at our hotel. **Accommodation**: Hotel at Punta Leona (en suite rooms). **Meals**: B, L, D.

Day 3. 30 April. Punta Leona – Carara National Park. We will opt for some early morning birding around the lodge before we make our way to the nearby Carara National Park. This area is a transition zone between the rainforest of the Pacific coast and the dry forests of the north, with the boundary marked by the meandering Tárcoles River. We will spend the whole day in the national park, enjoying the fabulous diversity of flora and fauna found here. The incredible

Yellow-throated Toucan - S.Ehrenberg (L) White-faced Capuchin - Vernon Campos (R)

Scarlet Macaw is possible here, and we will aim for several Central American specialities including Brown-hooded and White-crowned Parrots, and the very special Red-capped Manakin. Orange-collared and Velvety Manakins are also possible here, and this family of small and plump, often brightly coloured birds, are a feature of the Neotropics, well-known for the males intense lekking displays. Additional species possible here include Bay-headed Tanager, Bright-rumped Attila, Long-billed Gnatwren, Wedge-billed Woodcreeper, Crested Guan, and Long-billed Hermit to name a few. The area is also rich in mammals, and we will keep a look out for Mantled Howler Monkeys, Northern Tamandua, White-faced Capuchin Monkeys, White-nose Coati, Hoffman's Two-toed and Brown-throated Three-toed Sloths and Collared Peccary. Reptiles we may see here include Helmeted Basilisk and Spiny-tailed Iguana. After a full day in the Pacific lowlands, we make our way to our hotel for dinner. **Accommodation**: Hotel at Punta Leona (en suite rooms). **Meals**: B, L, D.

Day 4. 1 May. Punta Leona – boat cruise on the Rio Tárcoles. With so much to see around the lodge we will again start our day birding around the lodge before breakfast. We will then make our way to the Rio Tarcoles for a cruise where an impressive diversity of waterfowl and other species may be seen. Herons are well-represented with the fabulous Boat-billed, Tricoloured, Little Blue and Great Blue Herons and Black-crowned and Yellow-crowned Night-Herons and Snowy Egret all possible! Raptors we may see from the boat include Osprey, Laughing Falcon, Yellow-headed Caracara, and Common Black Hawk and shorebirds comprise Hudsonian Whimbrel, Wilson's, Semipalmated, Black-bellied and Collared Plovers, American Golden Plover, Western and Semipalmated Sandpipers, Willet, Short-billed Dowitcher, Spotted Sandpiper, and the handsome Southern Lapwing. A menagerie of other species is possible including Black-bellied Whistling-Duck, American Pygmy Kingfisher, the delightfully pink Roseate Spoonbill, Wood Stork, Mangrove Hummingbird, Mangrove Yellow Warbler, Rufous-browed Peppershrike, Cinnamon Becard, Great Crested Flycatcher, and Mangrove Swallow. Large specimens of American Crocodile are expected, and we may see the fantastic Common Basilisk. In the mid-afternoon we may head up a nearby mountain for a host of different rainforest species such as Ochre-bellied Flycatcher, Green Honeycreeper, Black-faced Ant-thrush, Chiriqui Foliage-gleaner, the gorgeous Golden-collared Tanager, and Yellow-throated Euphonia. After dark we may opt for a night drive to search for owls including Striped Owl. We return to our lodge for our third and final night in this wonderful area. **Accommodation**: Hotel at Punta Leona (en suite rooms). **Meals**: B, L, D.

Bay-headed Tanager - Wilga Kottek (L), Brown-throated Three-toed Sloth - Vernon Campos (R)

The incredible Resplendant Quetzal - Vernon Campos

Day 5. 2 May. Punta Leona to Talamanca Mountains. After a final spell of pre-breakfast birding and breakfast at the lodge we will begin what is largely a travel day. We will of course make several stops on the way and break for lunch. Birds we may see en route include White-collared Swift, Scarlet-rumped and Silver-throated Tanagers, Yellowish Elaenia, Red-crowned Woodpecker, Shining Honeycreeper, and the delightfully named Purple-crowned Fairy. As we move up in elevation, we'll start to see more hummingbirds with several species possible including Stripe-tailed Hummingbird, Green-crowned Brilliant, White-tailed Emerald, and Snowy-bellied Hummingbird. Our ultimate destination today is a little lodge nestled in the in the Talamanca Mountains (Cordillera de Talamanca). This fabulous area is home to unique montane forest of evergreen trees, including two special species of oak: *Quercus copeyensis* which is endemic to the area, and *Quercus costaricensis* found only here and in neighbouring Panama and Honduras. We hope to find a range of special birds in this area and top of our wish list is the incredible Resplendent Quetzal that we will make every effort to track down while here. **Accommodation**: Hotel in Talamanca Mountains (en suite rooms). **Meals**: B, L, D.

Day 6. 3 May. Talamanca Mountains. We have a full day today to explore the riches of the Savegre Valley in the Talamanca Mountains. Our main target is of course the peerless Resplendent Quetzal, but there are a whole lot of special birds possible while we explore these forests (lest we forget, Costa Rica is home to over 900 species!); these include the fabulous Spotted Wood-Quail, Black Guan, Yellow-thighed Brush-Finch, the skulky Wrenthrush, Elegant Euphonia, Silvery-fronted Tapaculo (with luck!), Spot-crowned Woodcreeper, Buffy Tuftedcheek, Golden-browed Chlorophonia, Mountain Elaenia, Barred Parakeet, Collared Redstart, Black-billed Nightingale-Thrush, Long-tailed Silky-Flycatcher, Tufted, Yellowish and Black-capped Flycatchers, Yellow-winged and Brown-capped Vireos, Flame-throated Warbler, and Ruddy Treerunner. At a local feeder and fruit table we hope to see Spotted Wood-Quail, Buff-fronted Quail-Dove, Fiery-throated and Talamanca Hummingbirds, White-throated Mountain-gem, Large-footed Finch and Flame-coloured Tanager. As night falls, we will search for Dusky Nightjar and if we are very fortunate, we may see Unspotted Saw-Whet Owl. **Accommodation**: Hotel in Talamanca Mountains (en suite rooms). **Meals**: B, L, D.

Day 7. 4 May. Talamanca Mountains to the Orosi Valley. We begin the day by making for páramo, an expanse of alpine shrublands and grasslands rich with endemic plants. Here we will look for Volcano Hummingbird, Peg-billed Finch, Timberline Wren, Volcano Junco and other species that live in the higher reaches of the Cordillera de Talamanca. We then continue our journey toward the Caribbean slopes making a stop for lunch where we will enjoy various species of hummingbirds at their feeders and the possibilities of other species such as Black & Yellow Silky-Flycatcher and Yellow-thighed Brushfinch. We will then pass through the city of Cartago, the first capital of Costa Rica, where if time permits we will stop at the Basílica de Nuestra Señora de los Ángeles, which was founded in 1639 and restored in 1939. Our destination for the day is a wonderful hotel in the Orosi Valley. Located in a hotspot for birds (over 450 species have been recorded from the hotel grounds) this is the perfect base for the next two days. Among the species recorded from the surrounding area are Montezuma and Chestnut-headed Oropendolas, Spotted Barbtail, the stunning Golden-browed Chlorophonia, Collared Trogon, Streaked Xenops, Scale-crested Pygmy-Tyrant, Lesser Goldfinch and if we're very lucky Scaled Antpitta. The stream below the lodge is also home to one of the star birds in the Neotropics – the amazing Sunbittern! **Accommodation**: Hotel in the Orosi Valley (ensuite rooms). **Meals**: B, L, D.

Day 8. 5 May. Orosi Valley. We'll make an early start to visit a private lodge on the other side of the mountain. Here, bird feeders and flowering attract some lovely hummingbird species such as the incredible Snowcap (a tiny, white-capped, coppery-magenta gem of a bird!), Green Thorntail, Brown Violetear, Violet-headed Hummingbird, Violet Sabrewing, and Blue-throated Goldentail. Additional species we may see while here include gorgeous Emerald, Bay-headed, Black and Yellow and Speckled Tanagers, Black-faced Grosbeak, Western Wood Pewee, Mistletoe Tyrannulet, Black-cheeked Woodpecker, Masked Tityra, Scarlet-thighed Dacnis, Yellow-crowned, White-vented, Olive-backed and Tawny-capped Euphonias, Mistletoe Tyrannulet , Slaty-capped Flycatcher, and Black-headed Tody-Flycatcher. After another full day in high altitude forest, we'll make our way back to our hotel for a delicious dinner. **Accommodation**: Hotel in the Orosi Valley (en suite rooms). **Meals**: B, L, D.

Day 9. 6 May. Orosi Valley to Caribbean lowlands. We have a journey to the Caribbean lowlands ahead of us today. We'll aim to start the day with a stroll around the grounds and after breakfast begin the journey to the lowlands. We'll plan on a few stops today to break the journey where possible; highlights may include Collared Aracari, Black-cowled Oriole, Pale-vented Pigeon, Grey-capped Flycatcher, White-necked Jacobin and Bronze-tailed Plumeleteer.

Volcano Hummingbird and Snowcap - Vernon Campos

One of the country's most striking looking reptiles, the fantastic Green Basalisk is possible on the Caribbean slope. We will arrive at our lodge for dinner this evening. **Accommodation**: Lodge in Caribbean lowlands (en suite rooms). **Meals**: B, L, D.

Day 10. 7 May. Caribbean lowlands - La Selva Biological Station. After an early breakfast we will depart for the world-renowned La Selva Biological Station. La Selva was established in 1953 and has expanded over the years to encompass 1600 hectares of lush lowland rainforest. Used by researchers around the world, the species richness in this rainforest laboratory is astounding, with very impressive species numbers: >2,077 plants, 125 mammals (72 of them bats!); 48 amphibians; 87 reptiles and 470 birds! It is one of the most important protected ecosystems for the iconic Great Green Macaw, and we can expect a day brimming with great birds and natural wonders. Possible highlights include Graceful Black-throated Trogon, Pale-vented Pigeon, Olive-backed Quail-Dove, Scarlet-rumped Cacique, Broad-billed and Rufous Motmots, Crested Guan, Chestnut-coloured and Cinnamon Woodpeckers, Olive-throated & White-crowned Parrots, the very striking Snowy Cotinga, White-whiskered Puffbird, the endearing Spotted Antbird, Bay and Stripe-breasted Wrens, Grey-breasted Wood-Wren, and Red-throated Ant-Tanager. Mammal viewing can be good here too with Brown Three-toed and Hoffman's Two-toed Sloths, Central American Agouti, Honduran White Bat, and Collared Peccary all possible plus an outside chance of seeing less common critters like Silky Anteater. Reptiles include Black Wood Turtle, Striped and Green Basalisks, and Fer-de-lance. We will return to the lodge for lunch and for the afternoon will either return to La Selva or explore elsewhere. We will head out after dark for a spell of frog spotting where we may see Red-eyed and Harlequin Tree Frogs among others. **Accommodation**: Lodge in Caribbean lowlands (en suite rooms). **Meals**: B, L, D.

Day 11. 8 May. Caribbean lowlands. After pre-breakfast birding and breakfast at our hotel, we will travel to nearby birding areas comprising a combination of open country birding and bird feeding stations around the Rio San José. We also will aim to track down an owl species or two at their day roost with both Spectacled and Crested Owls possible. At sugar feeders White-necked Jacobin, Bronze-tailed Plumeleteer, and Green-breasted Mango are possible while at fruit feeding stations Orange-chinned Parakeets, Scarlet-rumped Tanagers, Green and Red-legged Honeycreepers, and Monetzuma Oropendola may be seen. We will also have the opportunity to visit a Cocoa factory, where you will learn the process of making chocolate and the history and importance of this crop for the local culture. We will return to our hotel for dinner. **Accommodation**: Lodge in Caribbean lowlands (en suite rooms). **Meals**: B, L, D.

Green Basalisk and Graceful Black-throated Trogon - Wilga Kottek

Day 12. 9 May. Caribbean lowlands to Caño Negro. After our customary pre-breakfast birding and breakfast at our hotel, we travel to our base near Caño Negro Wildlife Refuge, one of Costa Rica finest wildlife reserves. We will break for lunch on the way and enjoy some open country birding, with possible species including Amazon Kingfisher, Tricoloured Heron, Blue-black Grassquit, and Nicaraguan Seed-Finch. Before arriving at our accommodations in the Caño Negro area we will explore a large marshland by foot and boat. The variety of wetland and open-country species here is impressive and includes Roseate Spoonbill, American White Ibis, Green Kingfisher, Purple Gallinule, Northern Jacana, Anhinga, Purple Gallinule, Pinnated Bittern, Snail Kite, Orchard Oriole, Olive-crowned and Grey-crowned Yellowthroats, Northern Beardless-Tyrannulet, and Thick-billed Seed-Finch. We will have dinner at our lodge this evening. **Accommodation**: Lodge at Caño Negro (ensuite rooms). **Meals**: B, L, D

Day 13. 10 May. Caño Negro. We will enjoy a full day in the Caño Negro Wildlife Refuge, a vast complex of wetlands and woodlands brimming with birds and wildlife. We will spend much of our time exploring by boat so can expect many wetland species. Possible highlights include Jabiru, Green Ibis, Amazon and Ringed Kingfishers, Sungrebe, Bare-throated Tiger-Heron, Great Blue and Boat-billed Herons, Southern Lapwing, Yellow-breasted Crake (if fortunate) and Spotted Sandpiper. In woodland and edge habitat in the reserve and broader area we may see Black-headed Trogon, Grey-headed Dove, Nicaraguan Grackle, Spot-breasted Wren, Melodious Blackbird, Golden-olive, Black-cheeked and Hoffman's Woodpeckers, Pied Puffbird, White-winged Becard, Red-lored Amazon, Pale-vented Pigeon, Pacific Screech-Owl, Russet-naped Wood-Rail, Roadside, Grey and Broad-winged Hawks and White-browed Gnatcatcher. Reptiles include Spectacled Caimans, the fabulous Green Basilisk, and Black River Turtle. **Accommodation**: Lodge at Caño Negro (en suite rooms). **Meals**: B, L, D.

Day 14. 11 May. Caño Negro wetlands to San José. We have a reasonable drive to get back to San Jose today but will spend time this morning looking for any species from the area that we may have missed. We will stop at hummingbird feeders along the way where we will have more chances to see now-familiar species like Green Hermit and Violet Sabrewing, as well as less common species such as Talamanca and Black-bellied Hummingbirds, the endemic Coppery-headed Emerald and the stunning Purple-throated Mountain-gem. After enjoying a buffet lunch, we will make our way out of the high country for San José for our final farewell dinner. **Accommodation**: Hotel in San Jose (en suite). **Meals**: B, L, D.

Day 15. 12 May. Depart Costa Rica. Today we depart Costa Rica for our onward travels. No activities have been planned for today, and the hotel airport shuttle bus will be available for airport transfers as required. **Accommodation:** none. **Meals**: B.

Silver-throated Tanager- Vernon Campos

Important Information

Please Note

The Itinerary - We aim to follow the planned itinerary but remain flexible based on weather, wildlife activity, and local insights. Inala guides may adjust the schedule as needed to enhance the experience.

Price - The price detailed in the Tour Details section on page 2 is based upon a group size of 6-8 participants. If the tour does not achieve minimum numbers, we may offer you the option of continuing with a smaller group size at a small supplement (we would always discuss options with you beforehand).

Pace & Style of the Tour - Inala designs comfortable itineraries for small group tours, balancing a moderate pace with the goal of finding as many wonderful species as possible. A reasonable level of fitness is required for this tour, and you you be able to walk for up to 4 kilometers a day, occasionally on rough and steep terrain. Is this tour suitable for all birding experience levels? Absolutely! Our guides cater to everyone, from beginners to lifelong birders. Their expertise extends beyond birds, covering topics like history, botany, insects, and reptiles. Whatever your interest, our guides make this experience both educational and engaging. While birding is the core focus, this tours also highlights a diverse array of mammals, reptiles, and flora, offering stimulating experiences for guests with varied interests.

Remoteness - For much of this tour we will be in a wonderful yet remote part of the world. In places the roads are unsealed, winding, narrow and rough. If you have medical conditions or health concerns, it is important you make us aware of these in advance of this tour.

Photography - Many birders also enjoy photography and this tour offers some fabulous opportunities. While we offer specialist private photography tours, on our group tours the aim for everyone to get a clear view before photographers adjust position for better shots; this is essential for maintaining group harmony.

Meals and Drinks - Most meals will be taken at the hotel/lodge restaurant, although on some days we may take packed lunches or breakfasts to maximize time in the field. Drinks (soft and alcoholic) are generally not included. We request dietary requirements pre-tour and strive to accommodate all needs, including gluten- and dairy-free options. However, in more isolated areas, meal selections are limited. We send dietary requirements to meal providers in advance, but flexibility is appreciated. We encourage guests to bring reusable water bottles. Clean potable water for drinking will be provided.

Accommodation & Rooming - We select clean, comfortable accommodations, generally rated 3–4 stars. In remote regions chosen for their exceptional flora and fauna, options may be limited. Double rooms may feature a double, queen, or king bed, depending on the location. Twin rooms typically have two single beds or one single and one double/queen/king. Most rooms include en-suite bathrooms, though some remote stays may have shared facilities. Guests booking a single supplement always receive a private room, and we do our best to ensure a private bathroom as well, though occasional sharing may be necessary.

Ethics - Inala prioritises respect, conservation, and wildlife protection. We take care not to stress or disturb animals, avoiding excessive proximity and unnecessary handling. Bird call-backs are used sparingly. Our guides, inspired by Dr. Tonia Cochran's industry-leading ethical standards, practice patience and care, leading to incredible, natural wildlife encounters.

Medical Certificate - A note from a medical doctor clearing guests to be in good health to participate is required for all international tours.

Travel Insurance - We strongly recommend that all guests obtain comprehensive travel insurance to cover any financial losses resulting from cancellation, delays, medical emergencies, or other unforeseen circumstances. Travel insurance is mandatory for participation in all international tours operated by Inala. Proof of adequate coverage may be requested prior to departure.

Important Information

How to Book this Tour

After completing a booking form - either through the tour listing on the Inala Nature Tour website, or through a link provided after an email enquiry with Inala staff - an invoice for a deposit of 25% tour cost will be issued. Payment of the deposit will guarantee your place on the tour.

Payment Policy - Full payment of the balance is required 90 days prior to departure.

Cancellation Policy - If a guest needs to cancel prior to tour departure, the following policies will apply:

- Cancellation by the guest after the deposit has been paid will result in the forfeiture of the full deposit. This policy reflects the administrative costs incurred by Inala in designing, coordinating, booking, and modifying tours, as well as any non-refundable deposits paid to suppliers on your behalf. However, if we can fill your place on the tour and recover the associated costs, we may offer to apply a portion of your forfeited deposit toward a future tour booking. Such arrangements are considered on a case-by-case basis and are not guaranteed.
- Cancellations between 90-46 days prior to departure incur a cancellation fee of 50% of the tour cost.
- Cancellations 45 days or less prior to departure incur a cancellation fee of 100% of the tour cost.
- If Inala Nature Tours need to cancel a group tour, due to undersubscription, Inala will refund to you all payments made for the tour.
